

ACOS OP07A

ACOS 7-series operating panel

ACOS OP07A is a versatile visualization unit for all types of facilities monitored and controlled by ACOS 7-series products. It is featured with

- 7"-color display
- function and navigation keys for local monitoring and operation
- 6 configurable control touch keys
- 16 configurable LEDs (red/green colored)
- keys and LEDs with writable tags
- 2 keylock
- robust flush mounting metal case
- a connection through a RS-232/RS485-interface.

Engineering/configuration is based on CODESYS® V3 visualization, allowing so maximum flexibility in the realization of operation, visualization and interlocking functions.

Technical Data - ACOS OP07A

Order number	160050847
Display	7" - TFT-color display 480 x 800 Pixel
Keylock	Local/Remote Lock/Unlock
Interfaces	1 x RS232 1 x RS485
Supply	24 V DC - 20%/+ 25% typ. 10 VA
Housing	Painted metal case flush mounting IP30 (front panel)
Temperature	0...50°C
Dimensions	278 x 215 X 38 mm (W x H x D)
Frame depth	28 mm
Wight	1,57 kg
